Winter School for Space Kids 2026

(A Foundation Program for Little Space Explorers)

Indian Space School proudly presents the Winter School for Space Kids 2026 — a seven-week online foundation program designed for students of **Grades 1 to 4** to explore astronomy, the Solar System, stars, constellations, gravity, light, rockets, satellites, Indian space missions, extraterrestrial life and future space exploration.

The program combines interactive sessions, STEM activities, quizzes, practical learning and project-based learning to explore space science in a fun, age-appropriate way.

The program will be conducted over 7 weeks, structured as follows:

- **Weeks 1–4**: Core Space Science Learning and Interactive Sessions
- **Week 5**: Guided Mini Space Explorer Project Preparation
- **Weeks 6–7**: Project Development, Mentoring, Evaluation and Submission

Participants will receive guidance throughout the project phase and will have the opportunity to apply their learning by developing, completing and presenting a Mini Space Explorer Project.

Eligibility:

- Students currently studying in **Grades 1 to 4** are eligible to apply.
- Participants should have access to a mobile phone, laptop, desktop or tablet with a stable internet connection to attend live online classes and complete activities.
- Open for **Indian** and **International Students**

Application Process:

- Registration Period: **08 October 2026 – 05 November 2026**
- Orientation Session: **08 November 2026**
- Program Duration: 0**9 November 2026 – 27 December 2026**
- Mode of Training: **Online Mode**
- Timing **: Sessions would be conducted after 06:00 PM IST**
- Available Seats: **350**
- Students will be divided into small interactive batches to ensure effective participation and personalized learning.

Program Includes:

- Live interactive expert-led sessions
- Scientific Talks
- Interactive learning sessions
- Recorded session access
- Learning Management System (LMS) access
- Digital study material and learning resources
- Weekly quizzes and activities
- Fun STEM activities
- Hands-on experiments and demonstrations
- Guided project preparation
- Project mentoring and evaluation
- Dedicated discussion community for announcements and academic support

The detailed academic schedule will be shared with all registered participants before the commencement of the program.

PUBLIC ANNOUNCEMENT

Date: 07th October 2026

Fee Structure:

Program Fee: ₹2,000/- per participant (GST Included)

The program fee includes access to live classes, Scientific Talks, recorded lectures, digital learning resources, activity worksheets, LMS access, project guidance, project evaluation and certification upon successful completion.

The registration fee is non-refundable.

Program Modules:

- **Module 1**: Sun, Earth, Moon & Solar System
- **Module 2**: Stars, Constellations & Night Sky
- **Module 3**: Gravity, Light & Everyday Space Science
- **Module 4**: Rockets, Propulsion & Space Exploration
- **Module 5**: Satellites, Orbits & Earth Observation
- **Module 6**: India's Space Missions — Chandrayaan & Mangalyaan
- **Module 7**: Alien Life, Exoplanets & Habitable Worlds
- **Module 8**: Future Space Missions, Careers & Mini Space Explorer Project

Certification:

Participants who successfully complete the program requirements will receive:

- **Winter School Completion Certificate**
- **Project Completion Certificate**

Important Dates:

- **Registration Period**: 08 October 2026 – 05 November 2026
- **Orientation Session**: 08 November 2026
- **Program Duration**: 09 November 2026 – 27 December 2026
