INDIAN SPACE SCHOOL (ISS)

Ref- ISS/IND/WSSS/2026 **PUBLIC ANNOUNCEMENT** **Date: 11 November 2026**

Winter School of Computational Astronomy and Astrophysics 2026

Indian Space School announces the Winter School of Computational Astronomy and Astrophysics 2026, an eight-week online certification and research program for undergraduate and postgraduate students, PhD scholars and working professionals.

The program focuses on Python programming, astronomical data analysis, stellar astrophysics, orbital simulations, cosmology, exoplanet science and AI applications in astronomy through interactive classes, practical assignments and research-based learning.

Program Structure:

- **Weeks 1–6**: Academic Learning and Practical Assignments
- **Week 7**: Guided Research Development and Computational Implementation
- **Week 8**: Research Completion, Presentation and Evaluation

Each week includes two live interactive classes and one Sunday scientific talk featuring researchers and subject experts.

Participants will complete a guided computational astronomy or astrophysics research project using real astronomical datasets and scientific programming.

Eligibility:

- **Undergraduate and postgraduate** students in Physics, Astronomy, Astrophysics, Mathematics, Computer Science, Engineering or related disciplines.
- **PhD scholars and researchers** interested in computational astronomy and astrophysics.
- **Working professionals**, **educators**, **engineers** and **scientific researchers** seeking to develop computational astronomy skills.
- Participants must have access to a laptop or desktop computer with a stable internet connection.
- Basic knowledge of programming or mathematics is recommended but not mandatory.

Application Process:

- Last Date of Registration: **06 December 2026**
- Orientation Session: **13 December 2026**
- Program Duration: **14 December – 06 February 2027**
- Mode of Training: **Online**
- Total No. of Seats: **350**
- Students will be divided into small interactive batches to ensure effective participation and personalized learning.

Program Includes:

- Live interactive classes and weekly expert-led scientific talks
- Hands-on Python programming and scientific computing
- Astronomical data analysis using real datasets
- Computational assignments, simulations and visualizations
- Introduction to AI and machine learning in astronomy
- Recorded lectures and LMS access
- Digital study materials and academic resources
- Research methodology and scientific documentation
- Guided computational research project with mentoring
- Project evaluation and certification
- Dedicated academic discussion and support community

The detailed academic schedule will be shared with all registered participants before the commencement of the program.

INDIAN SPACE SCHOOL (ISS)

Ref- ISS/IND/WSSS/2026 **Date: 11 November 2026**

PUBLIC ANNOUNCEMENT

Fee Structure:

Program Fee: ₹2,000/- per participant (GST Included)

The program fee includes access to live classes, Scientific Talks, recorded lectures, digital learning resources, activity worksheets, LMS access, project guidance, project evaluation and certification upon successful completion.

The registration fee is non-refundable.

Program Modules:

Module 1: Python Programming & Scientific Computing
Module 2: Stellar Astrophysics & Orbital Simulations
Module 3: Astronomical Data Analysis & Observational Astronomy
Module 4: Computational Cosmology & Galaxy Dynamics
Module 5: Exoplanet Science & Time-Series Analysis
Module 6: Advanced Computational Methods & AI in Astronomy
Module 7: Research Development & Computational Implementation
Module 8: Research Completion & Final Evaluation

Successful completion of the project is mandatory for receiving the **Project Completion Certificate**.

Certification:

Participants who successfully complete the program requirements will receive:

- **Winter School Completion Certificate**
- **Project Completion Certificate**

Important Dates:

- Last Date to Register: **06 December 2026**
- Orientation Session: **13 December 2026**
- Program Duration: **14 December – 06 February 2027**
